

WEDGE WIRE SCREEN CANDLE FILTER TUBES Customized

Our dedicated engineering team offers a comprehensive customization service for wedge wire screen candle drum screens, supporting customized tube diameters, slot spacing, and ports to suit different applications.

Our products are manufactured to industry standards, and your screen tube filter needs will be met.

Application

The wedge wire screen candle filter tubes produced by our factory are widely used in various filtering, screening and stripping with its reasonable structure, high filtering precision and high working efficiency is considered as one of the best filtering elements.

- General Industry
- Mineral & Aggregate Processing
- Water Treatment
- Oil & Gas
- Mineral & Aggregate Processing
- Petrochemical & Refining

Specifications Of Wedge Wire Screen Candle Filter Tubes

Material	SS304, SS304L, SS316, SS316L, SS321, Duplex, Hastelloy, etc						
OD Range	19mm-2000mm						
ID Range	13mm-1981mm						
Length Range	Up to 6000 mm						
Slot Range	20 micron to 3000 microns (Tolerance:±5 micron)						
Wedge Wire	0.5x1.5	0.75x1.5	1x2	1.5*2	2x3	2*4	3*5
Support Rod	1.5x2.52x3	1.5x2.52x3	1.5x2.52x3	1.8*2.52x3	2x32x43x53x63x104x7	2x43x53x63x104x75x6	3x53x63x104x75x65x8
End Finishing	Thread fitting, Flange, Closed Plated, Resistance welded closed plate, Metal Ring, etc						
Note	Customized According To Requirement
